

Organisations Profile

Sri Sri Institute of Agricultural Sciences & Technology

Sri Sri Institute of Agricultural Sciences & Technology is registered Trust. The main Objectives is to promote environmental improvement programs through promotion of Natural farming, Plantation program, water harvesting & recycling, National seed bank.

The First ever biggest plantation program under the name Mission green Earth is undertaken for planting of 100 million saplings to fight the global warming.

- * The institute undertakes the program on Educating farmers about the concept of natural farming, sustainable agriculture and self-sufficiency through various agricultural-related activities
- * Capacity building of the target group through imparting training on various techniques of natural farming.
- * Development and production opportunities in different fields like horticulture, medicinal and aromatic plants, goshala, etc.

The Millennium Campaign informs, inspires and encourages people's involvement and action for the realization of the Millennium Development Goals.

The ongoing work of the Campaign is led by a secretariat housed at UNDP headquarters in New York”

UNEP

UNEP acts as a catalyst, advocate, educator and facilitator to promote the wise use and sustainable development of the global environment. To accomplish this, UNEP works with a wide range of partners, including United Nations entities, international organizations, national governments, non-governmental organizations, the private sector and civil society.

MISSION GREEN EARTH STAND UP TAKE ACTION

2008

Mission Green Earth

Art of Living, Sri Sri Institute of Agriculture Science & Technology Trust in association with the United Nations Millennium Campaign and United Nations Environment Programme, has launched MISSION GREEN EARTH STAND UP TAKE ACTION 08 initiative to plant 100 Million saplings Globally, between 16th July to 16th October, 2008. AOL targets 100 million participants worldwide with leading the message of "Pledging the Climate Change through Tree Plantation Agenda-the 7th Millennium Development Goal".

Once we have taken the action of "tree planting", the next step is to organize mass gathering of people to "Stand-Up" against Poverty and Injustice. The event will be organized between the 17-19 October 2008, where the UN MDG Pledge will be read out in places where the "Stand Up" will be held.

Plant More Trees to reduce the ill effect of Global Warming

Climate Change and Global Warming has now become a local issue. Human Induced Climate change has been proven beyond doubt and established by Scientific Community as well. It is also considered now as the main explanation for current rapid changes in World Climate.

The biggest factor of present concern is increase in CO₂ and other green house gases in addition to land use, ozone depletion and rampant deforestation. The efforts towards mitigation of climate change needs to be doubled and a global action needs to be taken so as to avoid future catastrophe.

It is high time to realise what we have inherited and what exactly are we going to leave behind for our future generation.

Tree Plantation Is the most effective way to combat and help mitigate Global warming. Planting 100 Million trees could reduce the amount of carbon by an estimated 18 million ton per year.

Mission Green Earth will include various communities, civil societies, corporates, educational institutions, and government body and school children to actively take part in a wide tree plantation campaign. A global action will be created in this mass movement so as to restore and replenish our Planet Earth.

At the 2000 UN Millennium Summit, world leaders from rich and poor countries alike committed themselves--at the highest political level--to a set of eight time-bound targets that, when achieved, will end extreme poverty worldwide by 2015. Goals 1 through 7 commit them to raise the poor out of poverty and hunger, get every child into school, empower women, reduce child mortality, improve maternal health, combat HIV/AIDS, malaria, and other diseases, and ensure environmental sustainability. Goal 8 explicitly recognizes that eradicating poverty worldwide can be achieved only through a global partnership for development. For poor countries to achieve the first seven goals, it is absolutely critical that wealthier countries deliver on their end of the bargain--more and more effective aid, more sustainable debt relief and fairer trade rules--well in advance of 2015.

Millenniums Deployment Goals (MDGs)

Eradicate Extreme Poverty and Hunger

Achieve Universal Primary Education

Promote Gender Equality & Empower Women

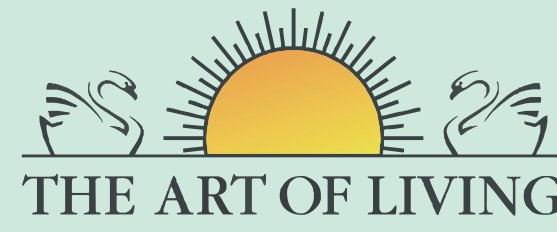

Reduce Child Mortality

Improve Maternal Health

Combat HIV/AIDS, malaria and other Diseases

Ensure Environmental Sustainability

Develop a Global Partnership for Development

In 1981, Sri Sri established the Art of Living, an educational and humanitarian Non-Governmental Organisation that works in special consultative status with the Economic and Social Council of the United Nations. Present in over 140 countries, it formulates and implements lasting solutions to conflicts and issues faced by individuals, communities and nations. In 1997, Sri Sri founded the International Association of Human Value.

The Art of Living initiatives strive to uphold the dignity of every human being on this planet, offering each individual a stress-free mind, a healthy body and the opportunity to maximize their potential for personal and spiritual growth.

Sri Sri is a multi-faceted social activist whose initiatives include:

- Conflict resolution
- Disaster and trauma relief
- Poverty alleviation
- Empowerment of women
- Prisoner rehabilitation
- Education for all
- Campaigns against female foeticide
- Child labour.

He is engaged in peace negotiations and counseling in conflict zones around the world. His expertise in bringing opposing parties to the negotiating table in areas such as Sri Lanka, Iraq, Cameroon, Kashmir and Bihar is widely acknowledged.

Art of living has many facts such as:

- Breathing Workshop for all age groups
- 5H Programme - YLTP (Youth Leadership Training Programme)
- Human Value (I.A.H.V.)
- V.V.K.I.
- Ved Vignan Maha Vidya Peeth (V.V.M.V.P.)
- Research (The Science of Breath)
- Sri Sri Ravi Shankar Vidya Mandir
- Sri Sri Ayurveda
- Sri Sri Rural Development Programme
- DSY (Dharma Stambha Yogna)
- Sri Sri Institute of Agriculture Sciences & Technology
